1. No processing of discharges or recruits has been observed in the barracks installation of Bad Freienwalde (N 53°V 28°) since the beginning of December 1951, except for 50 unarmed soldiers with baggage who arrived aboard the regular train from Eberswalde on 4 December. No training activity was noticed in the barracks installation up to 9 December. The damaged garages on the eastern edge of the billeting area were reconditioned and 50 to 60 additional vehicles can now be sheltered in the installation. Trucks were withdrawn from about half of the bays for vehicles west of the barracks installation and sheltered in the billeting area proper. Trucks 25X1B
 hauled supplies daily. Bus communicated between Bad Freienwalde and Eberswalde between noon and 5 p.m. daily, each time carrying from 25 to 30 officers up to the rank of major with artillery and tank insignia. Source believed that the bus carried the same officers between Bad Freienwalde and Eberswalde. *
